Step 1: Locate an EBSCO database. These include: Academic Search Complete, CINAHL Plus with Full Text, Health Source: Nursing/Academic Edition, MEDLINE with Full-Text, MasterFILE Premier, and many others.

You can either go to the EBSCO databases and select them from a menu, or go directly to the individual database you want to search. All library databases can be located by clicking on Find It > Databases > Databases by name.

Click on the corresponding letter of the database name. If you are off-campus you will be prompted to enter your myFranklin info.
Step 2  
You must be logged in to an EBSCO database. If you do not have an EBSCO account, click Sign In.

Then Create a New Account. Tip: You can use your myFranklin user name and password to make it easy to remember.
Step 3
Click on **Publications** at the top of the page.

Enter the name of the journal for which you want to receive notification, then click **Browse**.
**Step 4**  
Click on the **orange icon** next to the journal title to see your alert options.

**Step 5**  
Enter your **Franklin email address** and **Save Alert**
This is what your emailed alert will look like. Click on any of the article links to begin reading (if you are off campus you will be prompted for your myFranklin info).

EBSCOhost Alert Notification

To: kygo@franklin.edu
Subject: EBSCO Alert: SO nurse on 2011-06-02 03:57 PM
